

Dear competitors,

Please note that there has been an oversight in updating the OTA proprietary software for scoring Big Track PAX and Small Track PAX. The timing / scoring software was not updated with the revised formulas as per the 2024 Rules & Regulations Section 3.4 for both Big Track and Small Track PAX scoring.

As a result, the official scores for Event #1 on June 30th were rendered using 2023's formulas.

In order to keep the scoring fair for everyone throughout the remainder of the year, the OTA Organizing committee has decided to continue running the 2023 PAX formulas.

We sincerely regret and apologize for this oversight and believe this course of action is the fairest for all competitors going forward.

OTA Organizing Committee
